

Summer 2011 – English 304 Collaborative Proposal Reflection

To accompany your Collaborative Proposal (Project #3), please write a brief reflection (a memo or letter) detailing the rhetorical choices you made for the document. Also, please reflect on the collaboration process—How is your group working together? How have you decided to divide work? How are you collaborating and revising different sections?

In terms of proposal content, tell me about your decision processes regarding the following:

- focus (making your topic local and specific);
- persuasiveness (convincing me that you are capable of adequately and effectively addressing this topic);
- conciseness (writing clearly and succinctly).

Though you will receive a single grade on the Collaborative Proposal, your reflection will allow me to see how your group has approached the collaborative component.

The Collaborative Proposal Reflection is due with Project #3 either Thursday, June 9, 2011 or Friday, June 10, 2011 (if you asked for an extension). Please submit the reflections separately.
